

RMLGROUP  
SHORT WHEELBASE

## AN ICON REBORN

Inspired by the **legendary 250 SWB**, the **RML Short Wheelbase** is a welcome return to pure driving pleasure. **Combining beautiful styling and ample performance with engaging handling and modern creature comforts, its unique blend of classic form and contemporary function provides a refreshing and ultra-exclusive alternative to the mainstream.** With production limited to just 30 units worldwide and with each car finished to each customer's precise requirements, the **RML Short Wheelbase** is a car for the most discerning enthusiast.

## WHY FOLLOW THE CROWD?

An enlightened take on the high performance road car, the **RML Short Wheelbase** majors only on the things that matter. **Powered by a glorious front-mounted 485bhp Ferrari V12 and mated to a six-speed manual, open-gated transmission, it will immerse you in a truly magnificent analogue driving experience.** The intoxicating character of a period classic without the compromises. The comfort and usability of a **modern supercar** without the reliance on gratuitous speed.

**The best of both worlds.**

THE RML SHORT WHEELBASE

## CLASSIC STYLE, MODERN METHODS

What you see are perfect curves and exquisite detailing, but it's what's hidden beneath the flawless carbon fibre bodywork and luxuriously appointed interior that separates the **RML Short Wheelbase** from other recreations and 'restomods'.

**This is a bespoke, ultra-low volume project executed to the highest possible standards.**

The product of a meticulous approach to design, engineering and manufacturing, it draws upon **RML's** unrivalled skillset as the one-stop solution for race winners, cutting edge supercars and obsessively crafted Continuations.

## DESIGNED TO BE DRIVEN

Unlike its illustrious namesake the **RML Short Wheelbase** is packaged for the 21st century.

With ample leg and headroom even for 2m tall occupants, the fabulous interior features a high level of comfort and discreet modernity.

You'll be delighted to discover a hidden Satnav system which deploys on demand, brilliantly effective air-conditioning and a superb hifi. Likewise

there's the simple convenience of cupholders and sophistication of smartphone connectivity, including Apple CarPlay. **The perfect driver's car?**

**That's for you to discover...**
